### Buy The Best The Brown

Shoes for Ladies & Childr. " " Men and Boys And We Give you a Special Cash Price on Each Pair

## HENRY STONE, - Marion, Ky.

### SALE OF CRITTENDEN

County Tobacco—Goes to W. G. Head & Son of Madisonville.

At ten o'clock last night the contract was signed in this office for a sale of all the Crittenden Association tobacco. W. G. Head & Son, of Madisonville, are the purchasers. A million pounds or more at some price, seven cents average. All of which will be delivered at Marion. This sale cleans up all the Association's 1909 crop. Cable the same to England. And now Manager Elliott may turn his attention to that 3,500 hogsheads of unsold 1908 crop. Performance has proven him a great salesman; very great considering all the adverse circumstances confronting him.

Crittenden county has fallen into good hands. Mr. W. G. Head did business here in Henderson for years and enjoys the respect and confidence of Henderson county farmers. Hence it may be safely predicted he and good Crittenden numbers will hit it off all right.

### INSTRUCTIONS.

Members are anxiously expecting instructions and are daily scanning the Tidings column for details. And the editor of that column must explain just why at this writing it is impossible to give explicit details. The District Committee meets again Wednesday to arrange all the preliminaries to insure the smooth working of deliveries. Until every preliminary is agreed upon between

the committee and the purchasers will get detailed instructions as to all details properly. The will not be kept here for more than a day, as was sometimes the case last year.

On yesterday at noon I furnished the Evening Journal certain instructions gathered from Secretary Thompson and Manager Elliott. But before the day was out we had to press on learned of a trade by the Imperial Company and the Gallaher Company that rendered necessary a modification of the instructions furnished to us by yesterday's Journal.

By the trade referred to it is now settled that the Gallaher Company will operate the factories at Roberts and Corydon. Of course it does not matter in the slightest essential that the trade was made by the Imperial and Gallaher to the Association, but it does affect the instructions furnish ed in the Journal. Wherefore I shall in today's Gleaner begin over again and tell members all I can to date.

Monday night.

The District Committee has hit upon the best plan for the delivery of crops yet devised.

To illustrate, every farmer delivering tobacco at the city of Henderson must bring samples of his entire crop to headquarters and he will be told by the Association's representative where to take his entire crop. He will not be required to drive his wagon to headquarters. He simply comes one time with his samples and is directed to the purchaser who gets his entire crop. For instance, he will be told to take his crop to the Imperial or to Gallaher or to John H. Hodge or to any other purchaser in this way every farmer will know where his entire crop goes. In this

### WEBSTER COUNTY TOBACCO

I inclose a short study of the following regarding delivery of Webster county tobacco. I have just received it from Secretary Thompson and Webster county members may rely on its accuracy.

### AT PROVIDENCE

About 3,200,000 pounds to the Imperial and Gallaher from the Clay Providence and Dixon magisterial districts.

### AT SADBREE

About 2,500,000 pounds to the Imperial, (three factories) from the Dixon and Sebree magisterial districts.

### AT SLAUGHTERVILLE

The Slaughtersville magisterial district to the John H. Hodge Tobacco Company.

### AT HENDERSON

About 800,000 pounds of Webster county tobacco is to be delivered at Henderson to the Imperial Tobacco Company.

They set aside the old Clark house for this tobacco.

I cannot say to day positively, that tobacco will be received next Monday, the 13th. Later this week after the committee and purchasers agree on the opening day, I will make public the opening day.

### JAMES STANBERRY

Mashed to Death by Sand-bank Cave-in—Something of His Life.

Jim Stanberry, about thirty years old, was mashed to death in the Tradewater sand bank, belonging the West Kentucky Coal company. Mr. Stanberry, wife Burnam and others were getting out sand for the

### The Old House for 1910.

I am still in the hotel business at Marion for the New Year, at the place where I am now located. I have a host of customers. I am very proud of the reliable business of Crittenden, Livingston, Frankfort, Danville, Webster and Taylor, as well as also a nice mineral oil and hardware patronage.

Come and see me when in Taylor. I am the same congenial business I have been for the past 11 years. My habits are not surpassed, and my table is furnished with the best the market affords. I sincerely appreciate your liberal patronage and will

Yoour friend,  
Mrs. Sarah Gandy.

### What Is It?

It is the old Anglo-Saxon name for Dandruff and it's a great one. If you have dandruff you have it, don't let the little microbes that are part and parcel of dandruff are working consistently night and day and sooner or later will reach the very life of your hair and destroy its vitality.

Then you'll be bald—Bad to stay—for not even the woodiest rejetting properties in Parisian Sage can grow hair after the hair bulb is root is dead. Parisian Sage cures Dandruff. Hayes & Taylor, the druggists, sell it—recommend it and guarantee it; only 50 cents a large bottle and your money back if it fails to cure Dandruff, Falling Hair and Itching of the scalp.
